The Orthopedic & Sports Medicine Centers of Kansas and Missouri

Five nationally recognized orthopedic surgeons - C. Daniel Smith, William Humphreys, Bruce Smith, Brett Miller, and Corey Trease - have joined forces to serve patients in The Orthopedic & Sports Medicine Centers. This exceptional team of specialists provide outstanding surgical and non-surgical care at eight locations throughout Northwest Missouri and Northeast Kansas.

Leaders in the orthopedic field

Proficient in the latest advances in orthopedic technology, The Orthopedic & Sports Medicine Center surgeons were the first to perform minimally invasive surgery, the first to achieve one-day-stay joint replacement surgery, and the first to carry out advanced arthroscopic procedures of the knee and shoulder. For the leading edge in orthopedic diagnosis, surgery and recovery care, contact your closest OSMC – in Bethany, Fairfax, St. Joseph, and Trenton, Missouri or Atchison, Hiawatha, and Horton, Kansas.

Quality Rehab Therapy Services

Midwest Rehabilitation, Inc. provides quality physical and occupational therapy, industrial rehabilitation and sports medicine services in a friendly and caring environment. Our highly diversified, professional staff offers a great variety of services including treatment of musculoskeletal injury, joint replacement therapy, workplace injury, sports related injury, post-offer screening for industry, and functional capacity evaluation. With our state-of-the-art equipment for both treatment and functional testing, we are committed to one-on-one care for patients of all ages and with varying diagnoses. Our recent relocation to the lower level of the OSMC facility makes our quality and dependable rehabilitation services even more convenient.
